Drivers
Miles of Smiles

Celebrating 10 Years and the Start of a New Era!

A decade of RAFT! Ten years of history, learning, becoming and growing into Berthoud's premier transportation provider for seniors and adults with disabilities. This year, we celebrated Ruth Fletcher-Carter, Founder and first Executive Director of RAFT, as she transitioned to retirement. Her work, and the contributions of so many others, proved to be the solid foundation that would springboard us into our busiest year in history! With an area population boom, improved organizational efficiencies, and heightened awareness in the community, RAFT's mission is on an accelerated trajectory.

In 2024, we provided 3,909 total trips - a 26% increase over 2023! We added 14 new drivers to our incredible volunteer crew who drove a total of 67,715.61 miles (almost the equivalent of 3 times around planet earth!) From weddings and family reunions to support groups and pet care, RAFT has proven to be more than just a ride to the doctor. RAFT has been there for the

people of Berthoud because of the generosity and commitment of the Town, businesses, and people of Berthoud. I can think of no better way to honor the legacy of Ruth Fletcher-Carter and our first 10 years than by thanking this community who demonstrates their commitment to our seniors and individuals with disabilities through their support of transportation. - *Steve Conaway*
